EXAMINER'S COMMENT

Election/Restrictions

1. Applicant's election of claims 1, 2 and 4-8 in the reply filed on July 21, 2006 is acknowledged. Because the remarks filed with the election contained only broad allegations that the inventions are "sufficiently related" such that a "search for the subject matter of each of the designated inventions would encompass a search for the subject matter of the remaining designated inventions", applicant did not distinctly and specifically point out the supposed errors in the restriction requirement. Therefore, the election has been treated as an election without traverse. Note the requirement set forth in Section 4 of the restriction requirement of June 27, 2006, and note MPEP § 818.03(a), which states that "A mere broad allegation that the requirement is in error does not comply with the requirement of 37 CFR § 1.111".

2. This application is in condition for allowance except for the presence of claims 9-14 and 16-23, non-elected without traverse for the reasons described above.

Accordingly, claims 9-14 and 16-23 have been cancelled.

Drawings

3. The following changes to the drawings are required: the view numbers should be amended in accordance with 37 CFR 1.84(u)(1). For example, "FIG. 1" should replace

Art Unit: 2189

"Figure 1", "FIG. 2" should replace "Figure 2", etc. In order to avoid abandonment of the application, applicant must make these above drawing changes.
